## REPORT OF BOARD OF HEALTH.

There has been no epidemic of contagious diseases reported to the board. But one case of Dyphtheria which was contracted out of town and occurred in a Fin family living near the stone Quarry, which was properly quarantined, and no other cases developed from it.

A few cases of suspected water contamination have been reported and investigated, and when necessary rectified. Our general system of village water supply from springs outside the village, is an admirable one and affords but little chance for contamination. In quite a number of cases the springs have been analyzed and pronounced excellent. In a few cases in the village, families are dependent upon water taken from wells situated near the buildings with no adequate sewerage system, which afford a good chance for sewerage contamination. In such cases the board would advise frequent water analysis as many times communicable diseases can be traced to foul drinking water.

Respectfully submitted,  
D. W. TENNEY,  
E. P. RICHARDSON,  
W. H. ALDRICH.

## FIRE WARDS' REPORT.

The Firewards submit the following report:

During the past year there has been 6 fires within the town limits, on March 23, a spark from smoke stack at L. H. Towne's mill set fire to roof of building which was quickly extinguished without help from department. On April 5, an alarm was given by bell at 10 o'clock P. M. for a fire at Thomas Kelley's blacksmith shop, fire got under good headway, both companies responded and had fire extinguished in a short time, fire caught around forge, damage slight. On April 20, the department was called upon to send men to put out a brush fire on land of Fred Hunt, several men were sent to this fire. On April 22, a brush fire on line of railroad west of Marlboro' station, set by locomotive, Agent at station called for help and several men were sent over. On May 30, at 9:15 A. M. an alarm was rung in for a fire in two dwelling houses on lower Main St. near line between Keene and Marlboro' fire department in full, responded and in ten minutes had three streams of water playing on fire. One house belonging to Luke Knowlton, nearly destroyed, the other house belonging to W. J. Cloutier, damaged to the amount of \$375.00. On Nov. 23, at 1 P. M. an alarm by whistle and bell for fire at Cheshire Blanket Co.'s mill, was given, the full department was quickly on the ground and soon had seven streams of water on the fire which was under

fierce headway and required a stubborn fight to extinguish, which was done in quick time considering the conditions. The full department did excellent work at this fire and no city could have made a better showing, the loss was some \$12000, covered by insurance.

Each company have their full number of men viz: fifteen and forty. Engine house and apparatus in good repair. During the year there was added to the apparatus needed articles to the value of fifty dollars or more, which was kindly donated to the department by J. H. Kimball, who has always been interested in its welfare.

The Firewards would again suggest that a fire alarm, that the department could quickly designate between a Prayer-Meeting, Mass, or a fire, would be an improvement greatly needed.

CYRUS S. MOORS, {  
D. J. Hart,                 } Fire Wards.

Marlboro', N. H., February 15, 1908.

## LIBRARIAN'S REPORT.

To the President and trustees of Frost Free Library the librarian respectfully submits the following report:

During the year ending Aug. 26, 1907, the library was opened one hundred and four times, and altho the circulation has slightly decreased during the year, it is to be hoped that the benefits to be derived

from the library have not suffered. The introduction of a Tabard Inn library in town, a similar one in Keene and another circulating library in the same city has had a tendency to decrease the circulation of works of fiction in our own library, hence the total number of books issued during the year was 6463, which was 334 less than during the year ending Aug. 1906.

The total circulation of magazines, for the year, was 1386, which was an increase of 269 over last year's circulation.

One hundred forty books have been added to the library during the year just closed. The majority were purchased by the trustees, but through the generosity of Mr. Lowell C. Frost, some especially helpful, interesting books for boys, were presented to the library, besides a fine work on Canada. Thanks should also be extended to Mrs. Andrew Stone, of Lawrence, for a memorial volume of her late husband and to Mr. G. W. Nims of Boston, for two books of poems. Several state and government reports have also been received and a guide book of New Hampshire, the gift of Ex Gov. Rollins. Several books have been removed from the shelves on account of their worn condition, two others were removed from circulation at the request of the executive committee. Three books were destroyed at the two fires that have occurred in town within the year, while one book was not returned even after notices had been sent. Over sixty books were sent to the bindery early in August for much needed repairs.

The magazines have been well cared for considering the fact of their continuous circulation and hearty words of approval have been expressed at

the excellent variety of magazines this year. The public seems to appreciate the opportunity of having the magazines in their own homes, whereby the whole family may share the benefits for four days or a week.

The circulation has been more evenly divided between Wednesdays and Saturdays than previously and in that way it has been possible to catalogue new books and repair the old ones without taking extra time.

Of the books added during the year, 64 were adult and juvenile fiction, 18 related to church and Sunday-school movements, 16 were upon scientific subjects, written especially for young people, while the remainder were about equally divided among biography, history, travel, poetry and general literature.

There seems to be a demand for the old numbers of magazines and several patrons of the library have suggested that they be sold at auction, as there were so many desirable numbers that they should like to purchase. For the magazines sold last Jan. at 25 cts. and 50 cts. for a year's numbers, \$2.45 was received and several packages still remain unsold.

The cash account for the year is as follows:

Cash on hand Aug. 1906,	\$4 75
Rec'd for old magazines,	2 45
Fines and catalogues,	11 26
	<hr/>
Total,	\$18 46

A conference of library workers, which was held in Keene under the supervision of the State Librarian, was most helpful and pleasant, and help has also been derived from visits to other libraries in this section. The working methods of the Milford library being especially interesting.

The hearty thanks of the librarian is expressed to all who have in any way assisted in the usefulness of the library.

CARRIE T. KNOWLTON,

Librarian.

## REPORT OF THE SCHOOL BOARD

*To the Citizens of the town of Marlboro'.*

### *Greeting:*

The great Huxley once said: "The educational ladder should have one end in the gutter and the other in the university." While this is profoundly true, we are more interested in that part of the educational ladder which stretches between these two extremes, and strives to give the boys and girls of Marlboro' a practical education. The tendency of the age is to make the common schools more common; to bring them into closer touch with the needs and the problems of the common people. Of what value is an education if it fails to fit the boy or girl for the duties of every day life? Our pupils are attending school primarily to equip them for citizenship, and not for the mere purpose of graduating. Graduation is but an incident in the great school of life and learning.

### CHANGES.

Dr. S. H. McColleston, who has served the best interests of the schools for many years in almost every capacity, resigned his position as chairman of the school board in June. We voice the appreciation and respect of the whole town, as we

contemplate the years of faithful and self-sacrificing service of this honored son of Marlboro'. Levi A. Fuller was elected chairman of the board, Olive M. Kimball, secretary of the board, and Ray H. Page to fill the vacancy caused by the resignation of Dr. McColleston.

Both the principal and the assistant in the High school resigned at the close of the spring term and F. P. Caswell, of New Sharon, Maine, and Miss E. Josephine Martin, of Cambridge, were elected to fill these vacancies. In the middle of the year Miss Vera Tarbox, one of our most valued and efficient teachers, resigned to accept a better position in South Braintree, Mass. Miss Luna Tarbox, was elected to finish the year's work. Miss Bertha Merriam was transferred from school number 1, to school number 3, at her own request. (Miss Ella Wallace having resigned to enter Fitchburg Normal school,) and Miss Cora Fuller, was elected to fill the vacancy at number 1.

### SUMMER SCHOOL.

During the summer months, our town was most highly favored by having an industrial school in our midst. The gratitude of the town is due to Edward H. Kidder, Esq. who generously defrayed the entire expenses of the eight weeks' term. Two experienced teachers were in charge. Miss Ivy St. John Comstock, taught cooking and sewing and Miss Harriet E. Woodhull, basket making, bead and wood work. Mr. Kidder is deeply interested in the educational well-being of the town and has expressed his interest over and over again in a substantial manner. The time is fast coming when the curricula of our public schools will put empha-

sis on the vocational studies, such as manual training, and the household arts. Mr. Kidder has offered to co-operate with the town in the matter of expense in introducing these branches in the schools.

### TEXT BOOKS.

Since the high school course has been changed from a two years' to a four years' course, it has been absolutely necessary to purchase many new books for the high school. This has taken a very large proportion of the money appropriated by the town for books and supplies. During the coming year many books must be purchased for the lower grades, because the books in use are very much worn, having been used a number of years and better text books on the subject should be introduced. Language books and grammars should be purchased for all the schools, new arithmetics are needed in some of the grades, new geographies are needed in schools 1 and 3, a new set of histories must be purchased for the grammar grade and some new readers are needed to fill out where certain text books have been partially introduced. We ask the town for a liberal appropriation this year, after which time we do not see why the usual amount will not amply suffice.

### REPAIRS, INSURANCE, &c.

A new furnace has been installed at number 2, which furnishes ample heat to the north side of the building, and adds materially to the comfort of the pupils. Minor repairs are needed in the matter of grading around the building at number 2, so that

water will not run into the basement during a severe rain storm. Some black-boards need repairing in all the buildings, and at number 3 more blackboard surface is needed. The school-board believes that the apple-trees on the grounds at number 2, should be cut down and young shade trees set out. The apples are of no financial value to the town, and they are a menace to the physical and moral well-being of the pupils. Four insurance policies expire in 1908, and it will be necessary to raise money to re-insure.

### HIGH SCHOOL MILEAGES.

The matter of paying mileage to high school pupils is becoming a serious tax to the town. In a number of cases pupils receiving mileage do not travel the distance between their home and the school, as is plainly the intent of the law, but board in the village. In as much as members of your Board have been informed by such good authorities as the State Superintendent of Public Instruction and the town's attorney, that payment of high school mileage is illegal, we bring the matter to the attention of the voters.

### PARENTS.

The school-board is the servant of the people and should conscientiously seek to provide the best schools possible with the funds at their disposal. Patrons of the school should freely come to the board with any matter of criticism or commendation and will be met in a fair and unprejudiced spirit. We urge the most hearty support and co-operation of the parents and citizens for the coming year.

Without this the board and teachers alike are helpless in getting the best results. Visit the schools, give the teachers the encouragement of your presence and your interest. You can not better invest a little of your time and attention. Your duty is not all done when you have voted to raise money for the support of schools, See that your children are regular in attendance, you can not place the blame on the teachers if your child fails to meet the requirements for promotion unless you do insist on regular attendance. If there are tardy marks on your child's card, ask yourself and him, why? and please think over this homely but suggestive rhyme.

“What kind of schools  
Would our schools be,  
If everybody in town  
Was just like me?”

## RECOMMENDATIONS.

1—We recommend that the district instruct the schoolboard to cut down the apple trees on the grounds at number 2.

2—We recommend that the district instruct the schoolboard to suspend the payment of mileage to high school pupils.

3—We recommend that the district appropriate money to unite with some other town in sustaining a course in manual training and the household arts in accordance with Mr. Kidder's offer.

4—We recommend that the town raise \$400. for books and supplies, that the district raise \$50. for

repairs and \$70. for insurance.

FRED E. ADAMS, Town Clerk

# THE STATE OF NEW HAMPSHIRE.

*To the Inhabitants of the Town of Marlborough, in the County of Cheshire in said State qualified to vote in Town Affairs.*

You are hereby notified to meet at the Town Hall in said Marlborough on Tuesday, the tenth day of March next, at nine of the clock, in the forenoon, to act upon the following subjects:

1—To choose all necessary Town Officers for the year ensuing.

2—To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3—To see what sum of money the town will raise for the support of electric lights.

4—To see what sum of money the town will raise for Memorial Day.

5—To see what sum of money the town will raise for Old Home Day.

6—To see what sum of money the town will raise to build and repair sidewalks.

7—To see what sum of money the town will raise to repair the interior of the town hall building.

8—To see what sum of money the town will raise to pay the debts of the town and the interest on the same.

9—To see if the town will have a light placed at the bridge near John Heald's house.

10—To see if the town will vote to build a bank wall in Pine Grove cemetery, and appropriate money for the same.

11—To see what sum of money the town will raise to repair the hearse house.

12—To see what sum of money the town will raise to procure hose and ladders for the fire department, or to make any necessary repairs.

13—To see if the town will authorize the selectmen to borrow money on the credit of the town.

14—To see if the town will have a liquor agent.

15—To hear the reports of town agents or committees or other officers heretofore chosen or appointed, and to pass any vote relating thereto.

16—To act upon any other business that may legally come before this meeting.

Given under our hands and seal twenty-second day of February, in the year of our Lord nineteen hundred and eight.

F. D. HEMENWAY,	{	Selectmen of Marlborough.
